Okay.

This is what I am attempting to add:

8/28/17

After the acting Regional Administrator Bob Kaplan met with President Wildcat on August 15, 2017, EPA agreed to host a August 28, 2017 technical meeting. That meeting occurred via conference call. The agenda covered an overview of site conditions, purpose of an interim measure, key features of the two interim measures considered for the site (excavation and air sparging/soil vapor extraction), and pilot testing.

Ella,

I can get into TCOTs but I'm not sure how to add additional engagements. I think I should add to recent meetings (one a meeting in LDF between President Wildcat and a 8/28/17 Technical

meeting) to the engagement list. How do you do that?

Sherry
